

Credit and Identity Protection with Carefull ID

In a world of daily data breaches, text scams and phishing emails, it's important to safeguard your credit and identity now more than ever. Synovus Plus customers now have complimentary access to Carefull's advanced credit and identity monitoring, scanning the dark web for leaked and stolen personal information and monitoring your credit report for suspicious events.

If issues do arise, your Carefull membership also comes with \$1 million of Identity Theft Insurance, plus Carefull's award-winning white-glove care team on your side. All because you're with Synovus.

Get your Carefull protection in just minutes, and get back to focusing on the things that matter.

Identity Protection

Dark web monitoring scours hidden networks for your passwords and other personal data. We notify you immediately if your vital personal information is found.

Credit Protection

24/7 monitoring and alerting for any event on your credit report, including any changes to your credit profile—such as new inquiries, accounts opened, and more

ScamCheck

Our powerful new tool that instantly identifies potential scams. Simply upload suspicious texts, messages, emails, letters, or documents and get immediate analysis and guidance.

Live, US-based experts

Synovus Bank, Member FDIC. Only bank deposit accounts are FDIC insured.

Never give out your username, password, secure access code, or token. This is a serious threat. Synovus will never ask for this information. Any caller who asks for this information is not calling from Synovus. Protect yourself. Hang up and call 1-888-SYNOVUS (1-888-796-6887). Do not call the number back that was on your call log.

Some electronic banking services ("Services") made available to you by Synovus require you to use credentials including without limitation, passwords, user ids, tokens, multi-factor authentication, or other means of authentication, or any combination of the foregoing ("Credentials"). You authorize us to follow any instructions you or anyone else enters through any Services using your Credentials. Because your Credentials can be used to access money from, and information about, your accounts, you should treat your Credentials with the same degree of care and secrecy that you use to protect your automated teller machine card, personal identification number, or other sensitive personal financial data. You agree not to give your Credentials, or make them available, to any person not authorized to access your accounts, and you agree that we may conclusively presume that if your Credentials are used, such use is by you, including, without limitation, any of your authorized representatives or Users.
